EXPERIENCE

Monmouth University | West Long Branch, NJ — *Tutor/Lab Assistant*
September 2017 - PRESENT

- Assisted undergraduate students on a walk-in basis to achieve higher computer literacy and concept familiarity.
- Computer science and information technology assignments and projects utilized the microsoft office suite, adobe product line, and a variety of programming languages.
- Assisted professors in the classroom by answering student questions and keeping them caught up with the lecture.
- Managed classroom resources, offered extra help outside of class hours, and offered other general academic assistance to students during class hours.

Spinning Designs | Wall, NJ — *Programming Intern*
February 2019 - PRESENT

- Utilized C++ and arduino to reproduce a set of bitmapped patterns algorithmically to increase their modularity and the ease with which they could be customized.
- Introduced a uniform approach to setting pattern speeds and delays such that the company would be able to easily modify existing light patterns from static to dynamic effects.

Brick Memorial High School | Brick, NJ — *Marching Band Instructor*
August 2016 - PRESENT

- Senior visual instructor responsible for coordinating middle and high school students' approach to visual technique and performance.
- Students are taught to grow and uplift one another in a challenging and positive setting.
